THE EFFECT OF THE GOVERNMENT BUYING BONDS.

United States Treasurer Hyatt's Explanation of the Matter-Dakota's Desperate Fight for Admission Into the Union. The Grand Army Encampment.

WASHINGTON, Sept. 13.—The purchase of

the reverse has JAMES W. HYATT. been the fact. Instead of putting the price of bonds up it has lowered it materially.

When the department began buying the 4 1-2 per cent, bonds they were worth about 111 or 112 in the market. Now they are down to 108. Curious, isn't it, but it shows how difficult it is to tell in advance what the effect of a peculiar movement of this sort will be. I asked Treasurer Hyatt what he thought was the cause of this extraordinary freak of the market.

"I think," he said, "that it is due to the fact that there has been since the sale was begun a pretty brisk demand for money in the markets. The result has been that the holders of the bonds saw that they would make good use of their money in other directions, and as they knew of course that they would have to give up their bonds at par in four years they thought it better to sell them now at a reasonable premium."

"Do you think the prices would remain as low as they now are if the department should continue to buy the bonds for any length of time?"

"I presume they would go even lower. can only surmise, but if there is any demand for the money which is invested in these bonds, and I presume there will be, I think the prices will go lower than now."

Dakota's Fight For Admission. Washington, Sept. 13. - Word comes from Dakota that the people there intend to make a last and desperate fight before congress this session. They claim that no territory was ever quite so badly treated under similar circumstances. Michigan was kept out over thirty years after the question of sisterhood was "sprung" upon congress, by her ambitious citizens, while Dakota has only been knocking for sixteen years. But Michigan had no such population as Dakota has. In fact, no territory was ever admitted with over 135,000 population, while Dakota has, it is claimed, 600,000 population. To represent those 600,000 people in congress, they have one man who has no vote. Think of this in comparison with the condition of Rhode Island, which is about as big as a good county of Dakota, and has about one-fourth of the population of that territory, yet its people has two members in the house and two in the senate to represent them, and with power to vote, while Dakota's one representative is powerless to cast even a single vote in behalf of his people. It is easy to see that the fight is going to be hotter in the next session than ever

The Grand Army. WASHINGTON, Sept. 13. - Large numbers of the members of the Grand Army of the Republic are preparing to leave for St. Louis shortly, to attend the national en campment. They expect that this winter will find the Grand Army with over 300,000 members, perhaps as many as 325,000. The organization celebrates its twenty-first year at this annual meeting. The first post was organized in Decatur, Ill., in April, 1865, and the first national encampment was held in Indianapolis in November of that year. The second encampment was held in Philadelphia in 1868, the third at Cincinnati, the fourth at Washington, the fifth at Boston, the sixth at Cleveland, the seventh at New Haven,, the eighth at Harrisburg, the ninth at Chicago, the tenth at Philadelphia, the eleventh at Providence, the twelfth at Springfield, Mass., the thirteenth at Albany, the fourteenth at Dayton, the fifteenth at Indianapolis, the sixteenth at Baltimore, the seventeenth at Denver, the eighteenth at Minneapolis, the nineteenth at Portland, and the twentieth, last year, at San Francisco.

MURDER IN A COTTON FIELD.

### The Overseer of a Plantation Blows a Colored Picker's Head Off.

BARNESVILLE, Ga., Sept. 13. - The particulars of the murder of Lewis Woods, a colored man, in Crawford county, by James Chancellor, shows it to have been shocking and unprovked. Woods was a regular hand for wages on Mr. Bassett's plantation, while his wife was hired by the piece when her work was needed, the usual custom among farmers. Mr. Bassett kept the two classes of pickers apart, so that husbands working on time could not have a chance to help their wives, who were picking by the pound.

During the day Woods and his wife came together picking in parallel furrows, when Chancellor, the white overseer, came up and ordered them to move apart. To this Woods offered some objection, saying that the spot designated was snaky. Chancellor and his brother then drew their knives and advanced upon Woods, when the latter seized a fence rail for defense. Chancellor went to his house, a half mile distant, and got his shotgun. Walking up to Woods, who was at work and had not noticed his coming, Chancellor put the muzzle to Woods' temple, and saying, "Now come on with your fence rail," pulled the trigger and fired, almost blowing Woods' head off entirely. The coroner's jury has rendered a verdict that the killing was murder in the first degree. Chancellor is hidden out by his friends.

Plymouth Church Reopened. New York, Sept. 13.—Plymouth church in Brooklyn was reopened Sunday after the

summer vacation. Mrs. Beecher came from Stomford, Conn., to attend the service, and occupied the family pew alone. Rev. J. S. Willis, of Milford, Del., occupied the pulpit. Rev. Dr. White, of Summit, N. J., will occupy the pulpit next Sunday, and Dr. Parker, of London, the first week in Octo-ber. A member of the church committee said no action had yet been taken regarding the selection of Mr. Beecker's successor. He doubted if the position would be offered Dr. Parker, or if he would accept it if offered

RECEIVER ASKED FOR THE C., H. & D. A Stockholder's Charges Misappropriation

of Funds and Mismanagment. CINCINNATI, Sept. 13 .- George K. Duckworth, owner of 250 shares of Cincinnati, Hamilton & Dayton railroad common stock, filed a petition in Hamilton, O., last Saturday, asking for the appointment of a receiver for the road. The petition states that in January, 1887, the Cincinnati, Hamilton & Dayton stockholders authorized an issue of \$2,000,000 of bonds, secured by mortgage, and in June, 1887, voted to issue \$500,000 more bonds to purchase equipment for the road; that in September, 1886, they authorized the issue of \$10,000,000 preferred stock, afterwards devoted to general purposes, the president and vice president of the road having power to sell all of said bonds and stock. That after June 20, 1886, all the road's earnings being sent to H. S. Ives & Co., New York, the said H. S. Ives and George H. Stayner used said proceeds and moneys for their own purposes and not for the benefit of the road, and that they sold the \$2,500,000 of bonds and over \$4,500,000 of the \$10,000,000 preferred stock, and used the proceeds for their own ends. The petition recites facts showing the increase of the bonded and floating debt of the company and the purchase of the Terre Haute & Indianapolis road. It further states that the annual salary of C. C. Waite, as second vice president and general manager, has been increased since June, 1886, from \$6,000 to \$25,000; that the board of directors has mismanaged the road; that the corporation is on the verge of insolvency, and will be obliged to discontinue business unless it is taken out of the hands of the present management; and that it is necessary that a receiver be appointed.

The writ is returnable next Wednesday. Vice President Waite says that the suit will be resisted, as there are no grounds for the appointment of a receiver, the company having defaulted in nothing. The men who were making the trouble are no longer directors of the C., H. & D., and the suit is merely a scheme to break down the stock for the benefit of purchasers.

Attorney Ramsey's Opinion. NEW YORK, Sept. 13.—Judge William M. Ramsey, counsel for the Cincinnati, Hamilton & Dayton Railroad company, was called upon by a United Press reporter to-day in regard to the application for a receiver of the road filed by George F. Duckworth at Hamilton, O. Mr. Ramsey said he thought the suit very unwise, and much against the interest of the stockholders and creditors who hold C., H. & D. stock as collateral. The proceedings will undoubtedly fail, as there are no grounds to base them on.

Fraud on an American Ship-Owner. Ellis Curtis, flying the British flag, was seized Saturday at Scranton, Miss., under a libel by Z. E. Layton, of Baltimore, who claims to be her owner. He states that the schooner was condemned and sold at Bluefields, Nicaragua, in November, 1885, by collusion between the captain and the American consul at Bluefields. He heard of the vessel in August last as having sailed from Grand Cayman for Mobile with fruit. Having seized the vessel, he finds no damage whatever to the hull, and no signs that the vessel was ever in such a condition as to authorize her condemnation, She has an American register and tonnage. ## NEWS OF THE OLD WORLD

IMPORTANT RUSSIAN ARTICLE ON THE LABOR AGITATION.

The Land Question the Principal Factor in the Great Labor Movement Throughout the World-Editor O'Brien Arrested at Kingstown-Fifty Lives Lost.

London, Sept. 13.-A translation from the Russian of an important article supposed to be from the pen of the famous Stepriak on labor agitation has just been published here. It takes a unique view of the labor movement throughout the world. The writer claims that in nearly every country where discontent is rife among the masses less attention is being paid to the wages question than formerly, and more inquiry is being made in regard to the relation of the people to the land. The land question, in fact, is now "the constant factor" in the labor agitation of the world, whatever local variation there may be as to additional demands.

The Nihilists in their original platform make the restoration of the old Sclavonic system of community in land a leading demand. They left it in obeyance for a time but are now vigorously rushing it to the front again and the writer declares that much of the apparent quiesence of Nihilism lately is explained by the fact that the active members of the party are devoting their energies chiefly to arousing in the masses a determination to strike a blow at the proper time for the restoration of the mir, and the abolition of the onerous tax imposed upon the village communities by and since the emancipation ukase of Alexander III, in 1861. The leaders have become convinced that to slay a czar now and then will do no good unless the people are educated up to a capacity of local self-government such as the mir formerly represented. They are therefore postponing czar killing till a more enlightened season. They regard the existing mir as in no sense representative of what was formerly so-called.

The writer alleges that among the German Socialists the theory that much distress is due to the fact that the people's rights in the land have been usurped is assuming importance. The action of the trades congress a few days ago in demanding a tax on land which would finally result in the people owning it, seems to justify the author's statement of the growth of this idea. He

lludes to the prominence of the land question in Ireland and to the agrarian agitation among the Crofters of the Scottish Isles, but singularly enough does not give these the importance which he ascribes to the Russian and German movements above referred to. He says the Irish movement is not toward community of land ownership, and is therefore not a revival, but a new idea with historic sanction. He attributes great importance to the movement in America. The great fault of previous schemes of common land ownership, he says, is availed by the system of taxation up to rental value proposed by the American agitators. It is practically the same plan advocated by the English thinker, Herbert Spencer, and is MOBILE, Ala., Sept. 13 .- The schooner probably the only point the great Conservative philosopher is in agreement with the social reformers of the Democratic school.

The King of Holland Dying.

BRUSSELS, Sept. 13 .- The death of the king of Holland is expected now at almost any time. His recovery is given up by his physicians. The heir to the throne is Princess Wilhelmine Heleye, only seven years old. To have the right to wear the crown, the princess, when she arrives at maturity, must marry a person approved by the Dutch states general. During her minority Queen Emma will govern, with the assistance of a council of regents. According to the Salic law the princess as heir to the throne of Holland will have to give up any claim to ands heretofore in the same way, only a the grand ducal throne of Luxemberg to the prince of Nassau next in line of succession to her. Any dispute as to the title to Luxemberg might give a distinct opportunity to annex this lower country to Germany, at least this is feared in Holland, and threats have been made to destroy the dikes if there should be any attempt to dismember Holland by aggression.

Editor O'Brien Arrested.

DUBLIN, Sept. 13. - William O'Brien was arrested yesterday at Kingstown while on a vessel bidding farewell to Mr. Labouchere. The officers informed him that he would not be taken into custody if he would promise not to go to England, it being supposed it was with that intention he was aboard the boat. O'Brien refused to promise, and he was taken in charge and to Dublin to a hotel. He was informed that he could remain there all night if he would not make a speech. He again refused, and later made a speech, but was allowed to remain at the hotel. He was taken to Mitchelstown to-day by officers. He was accompanied by Mr. Harrington, who will act as his counsel. Mr. O'Brien denies most emphatically the assertion that he boarded the steamer with the intention of going to England to avoid

Yes,-about two months ago.

AT Plattsburg, Mo., the other day the evangelist Sam Small seems to have forgotten himself and given away some of his past life. He is reported as saying, during one of his sermons: "I was born a Democrat, raised a Democrat, and I studied its principles fully. I worked for it, I have spent money for it, I have drank whisky for it, have stolen ballots for it, I did all it told me, and it took me within half a mile of helh." Commenting upon this strong language, the Owensboro Messenger makes the "fur fly" by saying: "If the Rev. Small did all these things it was not owing to the fact that he was a Democrat but because he was an unmitigated scoundrel, and it is well he saved himself from the penitentiary, to say nothing of hell, by reforming and going to preaching for a living."

"I Feel so Well." "I want to thank you for telling me of Dr. Pierce's "Favorite Prescription," writes a lady to her friend. "For a long time I was unfit to attend to the work of my household. I kept about, I felt thoroughly miserable. I had terrible backaches, and bearing-down sensation across me and was quite weak and discouraged, I sent and got some of the medicine after receiving your letter, and it has cured me. I hardly know myself. I feel so well."

### It Was Nothing Serious.

In one of the city's most select and quiet localities, the other evening, cries of alarm and repeated calls for the police were heard tures were indulged in, some fearing that murder was in progress, while others believed that a burglar had been encountered. Just as the police reached the house the noise subsided, the door was quietly opened, and the gentleman at the head of that particular household came out and remarked to the officers that he was sorry for the disturbance A gentleman lodger was exploring the kitchen, in the dark, for some refreshment, and had put his foot into a trap which the cook had set to catch a particularly thievish rodent. The war dance indulged in by the hapless lodger, and the yells he emitted, as he hopped about on one foot, while the trap maintained its grip on the other, was the secret of the disturbance.—Boston Budget "Saunterer."

Leading Up to a Bitter Passenger War. CHICAGO, Sept. 13 .- It is asserted that the trouble over the reduced rates to the constitutional celebration at Philadelphia is rapidly leading up to a bitter passenger war. The authorized rate made by the Central Traffic association was \$24 for the round trip for parties of less than twenty-five. The Pennsylvania Line tickets were not made "iron-clad," and scalpers quickly gobbled them up, and by their use cut the New York rate about \$5. The Baltimore & Ohio, Lake Shore and Michigan Central decided to put on the same kind of tickets. It has been learned that several St. Louis lines have decided to put on sale similar tickets from St.

THE water in the river is getting very 'thin," and only the lightest draught boats succeed in working their way over the sand-bars. The J. H. He fell to the ground, striking on his head, and neck and jaws were badly bruised. He was removed to his home at Dover. His injuries may prove fatal.

## Fast Running.

The passenger train leaving here at noon did some fast running last Saturday. A new engineer, who usually has charge last night. They will be here to-night, of a freight train on the main line, was Summit at all, and when he once reached the top of the hill, he pulled her wide open and sent her forward at about a mile a minute. At least some of the passengers thought so, for one was heard to remark that "the engineer must have 'filled up' before he left town." When the first tunnel was reached, the passengers were surprised to see the train dash right through. Conductor Myers and Brakesman Carr were more surprised than the passengers. Carr pulled the bell on the new man at the second tunnel, but the speed was slackened but little. Once through, Myers stopped the train and, going forward, gave the fellow some orders about running through tunnels at that rate. This cooled things down a little and the other tunnel, near Carlisle, was run at ordinary speed. At Millersburg, the train was way ahead of time, and there was a wait of several minutes, probably to keep from surprising the fellows at Paris. Captain Myers spent part of the time at Millersburg in finding out what sort of a watch the new engineer was running by.

## POWDERLY NOT TO RESIGN

THE LATEST STORY ABOUT HIM LIKE THE OTHER ONES.

What He Will Advocate in His Next Annual Message-Four Thousand Pennsyle vania Miners Strike for a General Ad-

vance in Wages-Labor Troubles. SCRANTON, Pa., Sept. 13.—General Master Workman Powderly, in an interview, said his next annual message will advocate government ownership of telegraph and railroad lines and the establishment of a postal savings bank. Bills will be prepared by him to carry these suggestions into effect, and they will be submitted to the general assembly for its approval. Should the assembly approve these measures, they will be introduced in congress and backed by the full strength of the Knights of Labor. He added that there was a misunderstanding about his rumored resignation at the next general assembly of the order to be held in Minneapolis the first week in October. He said it probably arose from a statement which he made in Omaha and Boston some time ago to the effect that he was now serving his last term as chief of the organization. As he was elected for two years at Richmond, he has a year yet to serve, but he adds that he is ready at any time to make way for his successor should the order see fit to elect one.

Four Thousand Men Out.

SHAMOKIN, Pa., Sept. 13.—The miners of the collieries of the Mineral, Mining and Railroad company, the Union Coal company, the Excelsior Coal company, the Enterprise Coal company and the Garfield Coal company, struck this morning for a general advance. It is estimated that four thousand men are out on strike at Shamokin. The miners are thoroughly organized as Knights of Labor, and are prepared for a long lockout. No concessions were offered on either

Machine Stitchers Quit Work.

Boston, Sept. 13.-The McKay machine stitchers to the number of fifty left work at noon to-day, owing to a difficulty with the Knights of Labor, who settled the recent trouble at Chick's factory to the dissatisfaction of the strikers.

WILL NOT VISIT CINCINNATI.

President Cleveland's Reply to the Mayor of the Queen City.

CINCINNATI, Sept. 13. - The following letter has been received from President Cleveland by Mayor Amor Smith: "EXECUTIVE MANSION,

WASHINGTON, Sept. 12. "Hon. Amor Smith, Jr., Mayor, Cincinnati,

"DEAR SIR-I have received the invitation kindly tendered me on behalf of the municipal authorities, the commercial ex-changes and other civic organizations of Cincinnati to visit that city during my contemplated trip to the west and south. I am in receipt of like invitations from many other localities, and I have delayed action thereupon until I could definitely determine which of them my time and positive engagements already made would permit me to accept. To my regret I now find it nec essary to send to a large number of them replies similar to this.

"The trip is to be undertaken for the purpose of fulfilling my promises to visit St. Louis and Atlanta. The dates of these visits are fixed, and as both are included in a single trip, the time intervening between these dates is substantially all that can be devoted to visiting other cities. It is a physical impossibility in these circumstances to accept all the kind and cordial invitations which have been extended to me; and I have been oliged to mark out a route of travel, and select as stopping places, such cities as are on the way, or which for other controlling reasons it seems more desirable to visit at this time

"I am sorry that this plan precludes the possibility of my acceptance of your invitation; and I trust that the good people of Cincinnati will not attribute my failure to comply with their wishes, so warmly and so heartily expressed, to any want of appreciation of their regard or to any lack of desire to be their guest. Yours very truly, "GROVER CLEVELAND."

Too Anxious to Entertain Cleveland. INDIANAPOLIS, Ind., Sept. 13.—The board of trade and the Hendricks club are having a time as to who will entertain the president while at Indianapolis. John P. Frenzel is chairman of the executive, and Joseph E. McDonald is at the head of the reception committee. The Hendricks club has also appointed a committee to take charge of the arrangements and has selected a speaker t address the president upon his arrival. Mr. Frenzel says the Hendricks club orator will not be allowed to get within forty rods of the president, and that the club will take no other part in the reception than to appear in the procession escorting the president from the depot.

Unknown Man Killed.

CELINA, O., Sept. 13. -The 9 o'clock north-bound express on the Cincinnati, Jackson & Mackinaw railroad last night ran over a man six miles north of here, killing him instantly. He was a young man, well cressed, but a total stranger, having no papers on his person by which to identify

married a Colored Coachman.

NEW HAVEN, Conn., Sept. 13. - Miss Mary Tucker, a girl of nineteen, daughter of John S. Tucker, a former state representetive, has married John W. Hanchett, her father's colored coachman, and disappeared. Miss Tucker was allowed as much liberty as any other girl living in the city, but her parents never dreamed of her intimacy with Hanchett. Hanchett persuaded her to color herself with a liquid prepared by himself, and which made her look like a negress. The village minister performed the ceremony, and the couple then fled. They are being pursued by the girl's father and some of his friends. Mr. Tucker threatens to shoot Hanchett on sight.
